

ISSUE 1 - JUNE 2018

THE PRESIDENT WORD

Welcome to the EBC Newsletter! This materialised as a result of the EBC review conducted in 2016 and finalised in 2017, which made recommendations pertaining to enhancing the visibility of EBC work towards its stakeholders and its general brewing scientific and technical network. We are delighted to share this first edition with you and all forms of response, be they positive, negative, critical, or otherwise, are gratefully received and will help us improve our offerings. Just do it by addressing your comments to info@brewersofeurope.org. We thank you in advance!
